- Save up to 70% of electricity costs by going to LED
- Provide a safer, better-lit environment for customers and employees
- Eye-catching, illumination of storefront
- Retrofit/fixtures last twice as long
- High-tech controls, such as occupancy sensors and day-lighting monitors

► Our Experience

Arrow Signs & Lighting is a full-service company providing initial design, fabrication, and installation of all types of exterior building and parking lot lighting, pylon signs, (EMC) electronic message centers, identification and monument signs. We also offer our customers continued maintenance.

We have the equipment and staff to take care of any size commercial, community or industrial project from start to finish. We are happy to provide references and related examples from our vast job portfolio.

We have worked with over 1000 local and national businesses to help maximize their advertising, visual presence and practicality. The excellent service we provide along with decades of community involvement has created a trust that keeps customers coming back.

► Get your Retrofit Started

- 1 **Contact Arrow to schedule a free evaluation 618.466.0818 • info@arrowsignsinc.com**
- 2 We'll send out an expert to do a complete on-site survey of your current lighting system including your building, parking lot and all signage.
- 3 Arrow will review the evaluation and available Ameren incentives offered specifically to businesses like yours.
- 4 We will provide a proposal once your Ameren incentives have been verified.
